

ThreatLens Forensic Report

Generated: 2026-06-17T19:17:05

ThreatLens version: 2.3.0

SQLite database: incident.db

Executive Summary

Total alerts: 0

Correlated incidents: 0

Critical: 0 | High: 0 | Medium: 0 | Low: 0

Recommendations

- Isolate affected hosts and validate account usage patterns.
- Review the correlated incident timeline for multi-stage attack progression.
- Preserve chain-of-custody for exported evidence and signed reports.
